JOB VACANCY:

BOILERMAKER SPECIALIST AND TRAINER

ABOUT US

FG Gold Limited has been awarded the Baomahun Gold concession project located in Valunia Chiefdom, Bo District, and is currently in the development phase. To support this project development, FG Gold Limited is seeking a qualified individual to fill the 2 vacant positions of Boilermaker Specialist and Trainer.

RESPONSIBILITIES

The Boilermaker Specialist and Trainer is responsible for providing advanced technical expertise and hands-on leadership in welding and fabrication for the processing plant during the construction, commissioning, start-up and operational phases of the Greenfield gold mining project.

The role ensures that work on plant structures, tanks, chutes and pipework is carried out to high technical standards, and that national employees are trained and assessed to take over the work with confidence.

The Boilermaker Specialist and Trainer will troubleshoot and lead complex work, develop procedures, train and certify local tradespeople, and drive continuous improvement using industry best practice. The position plays a critical role in ensuring operational readiness before plant commissioning while building a skilled, locally sustained maintenance team.

- Provide advanced technical support on plate work, structural fabrication, liner and chute repairs and pressure-containing equipment, and lead complex repairs. Develop and verify welding procedures, weld quality and inspection requirements, and lead hardfacing and wear-protection repairs.
- Train, coach and mentor national tradespeople, leading hands and trainees on the job and in the workshop. Develop training material, competency standards and assessment checklists.
- Develop, review and enforce Standard Operating Procedures, work instructions and safe-work procedures. Ensure work meets OEM, statutory and company standards.
- Investigate failures, support Root Cause Failure Analysis and record findings. Recommend improvements to maintenance routines, spares and tooling.
- Support planned shutdowns with scope, job plans, resource estimates and spares lists. Specify critical spares, special tools and consumables with Supply Chain and Warehouse.
- Promote Zero Harm principles and lead by example in safe work practices, Permit to Work and isolation. Lead Job Safety Analyses, risk assessments and toolbox talks.

QUALIFICATION, SKILLS & EXPERIENCE

Educational Background:
Welding, Boilermaking or Fabrication Trade Certificate. Advanced trade qualification or technical diploma in Mechanical, Welding or Fabrication Engineering or a related discipline (desirable).

Experience:

- Minimum of 7 years' advanced troubleshooting and field experience in welding and fabrication, with coaching, competency development and safe-work procedure capability.
- Previous experience in a Greenfield mining project, commissioning or operational readiness environment.
- Experience with chutes, hoppers, launders, tanks, platforms, handrails, pipework, supports and wear liners.
- Desirable: experience in large-scale gold mining operations and contractor management.

Technical Skills:

- Welding processes (MMAW, GMAW, FCAW, GTAW, SAW)
- Fabrication of structural steel, plate work and pipework
- Reading engineering drawings and weld symbols
- Welding procedures, weld inspection and NDT
- Hardfacing and wear-protection repairs
- Hot work and working at height safety
- CMMS systems and Pronto ERP
- Mining safety legislation and risk management
- Coaching, mentoring and training skills
- Excellent communication and interpersonal skills

Languages:

Fluency in English.

Physical Requirements:

- Site-based Greenfield mining project; remote mine location.
- Roster-based employment.
- Workshop and plant environments with exposure to heat, noise, fumes, dust and working at height.
- Occasional work outside normal business hours during shutdowns, breakdowns and commissioning activities.
- Frequent interaction with operational, maintenance and project teams.

HOW TO APPLY?

You can submit your application, along with your most recent curriculum vitae, via email to recruitment@fg-gold.com, ensuring the subject line includes the job title: "**BOILERMAKER SPECIALIST AND TRAINER"** Alternatively, you may deliver a hard copy of your application and CV to the application box located at our FG Gold project site. The deadline for submission is December 4th 2026.
